Taylor Stake Track Meet Draws Big Crowd

Regular Board of Trade Meeting

The regular Board of Trade Meeting was held in the Town Hall Monday night with 20 members present. As it was the last meeting before the Stampede a great deal of the time was taken up in hearing reports and appointing committees to carry out the programme of the day.

The advertising committee reported that 2,000 envelopes and enclosures had been printed and distributed to the merchants, and were being circulated by them. The programs were being put out and would be scattered all over, and placards were also being printed for distribution.

The Finance Committee selected as follows: J. H. Walker, Chairman; Hubert E. Allen, W. C. Stone, C. D. Compton and T. R. Watson. These men will handle all the affairs as regards concessions, tickets, etc., and will select what help they need.

A resolution was read and accepted, inviting all towns in Southern Alberta to join with Raymond on Dominion Day, and copies of this resolution will be mailed to Boards of Trade and others. The resolution read as follows:—

Resolved, That we, the few, if any, Southern Alberta towns, as far as known, are holding Dominion Day celebrations;

That the Raymond Board of Trade hereby extend to all towns of South-

ern Alberta, and all people who so desire, a very hearty and cordial invitation to join with us in our Annual Stampede, to be held on Dominion Day, July 1st. And, that as far as it is in our power, we provide a program that will be clean, wholesome, and thoroughly enjoyable to all who attend.

And be it further resolved, That when our neighboring towns may choose to celebrate later in the summer, that we do all we can as citizens and as a Board of Trade to make their celebration a success, the same as we desire their help to make our day a big success.

A resolution was also passed, and the Secretary instructed to write the Town and express the appreciation of the Board for the splendid work that has been and is being done on the Town roads. It was stated that a movement was on foot to have the Sugar Factory road graded and surfaced with cinders, and the Board gave this move a hearty O.K.

The correspondence was read and disposed of, and a committee of J. W. Stone, J. O. Lichten and H. D. King as Chairman appointed to meet with the Council regarding a morning program and celebration on Dominion Day.

The meeting adjourned at 10 p.m.

Wedding Bells

WALL — HAWS

Owen Wall of Raymond and Miss Oetora Haws of Coaldale were married in the Cardston Temple on Wednesday of this week. Pres. E. J. Wood officiating. The young couple will make their home here and they have the best wishes of the community for happiness and success in their matrimonial journey.

GIBB — PALMER

Henry Gibb and Miss Nellie Palmer of Barrow surprised their many friends this week when they were married. The marriage took place in the Cardston Temple with Pres. Wood officiating. The bride is a daughter of Parley Palmer of Barrow and attended school here in Raymond. The best wishes of the community are extended to Mr. and Mrs. Gibb for joy and happiness in their matrimonial voyage.

News Notes

"DELICIOUS" at the CAPITOL — TONIGHT. The Show of Shows.

Mrs. H. H. Kimball and son John, are in Utah visiting with relatives and friends for a while.

The advance crew for the Waterton Lakes Prince of Wales Hotel are busy there now getting the Hotel ready for the opening on Wednesday the 15th, inst.

"DELICIOUS" at the CAPITOL — TONIGHT. The Show of Shows.

The District Olympic Trials in Athletics are being held in Magrath tomorrow, and quite a number of local aspirants will take part in the events.

Parents are advised that the Final Reports of the High School teachers regarding High School pupils will be given to the students this week-end. The High School staff desires that parents study this report and the recommendations regarding their children.

Preliminary construction work has commenced on the building of a small refinery, immediately outside the city limits of Regina, Saskatchewan, adjacent to the lines of the Canadian National Railways. The new plant is being erected by H. C. Karols and E. E. Karols, of the Regina Auto Body shop, and will cost approximately \$25,000 to complete. Gasoline, kerosene, and fuel oil will be produced at the new plant, which will include a cracking unit and also be equipped to eliminate sulphur from its products. The refinery is expected to be in production by fall, and will be the second such small plant to be erected in Regina this year.

Commenting on the announcement that the London Midland and Scottish and London and Northeastern Railway Companies in Britain had completed an arrangement for the pooling of receipts "wherever there is competitive contact between them," Sir Henry Thornton, Chairman and President of the Canadian National Railways, stated: "The proposed arrangement is highly intelligent and should result in material economy. With but negligible sacrifice, if any, it is a constructive step which may well be imitated where conditions permit." According to Sir Henry, there have been some general discussions along such lines, and consideration is still being given to the subject, but no conclusion has yet been reached. So far as the Canadian National Railway is concerned, the principle is one that has long been advocated and one which the Canadian National Railway would be prepared to accept heartily.

WOMEN'S INSTITUTE HOLD REGULAR MEETING

The Women's Institute held their regular meeting Thursday June 9th. Mrs. C. D. Compton gave a talk on Chinaware; its origin and the different kinds, exhibiting a number of pieces of English, German, Japan and French china, with some old heirlooms and some locally painted.

Miss Viola Backmore gave a reading and musical numbers were a plan. Margaret Allan and Margaret McBride and a vocal solo by Mrs. Duessenberry accompanied by Mrs. L. Doucombe.

News Notes

"DELICIOUS" at the CAPITOL — TONIGHT. The Show of Shows.

Miss Gladys Card of Cardston was a week-end visitor here, the guest of Miss Beth Walker.

Frank Atterton was busy with a crew of men on Friday last putting in the foundation for his new house.

"DELICIOUS" at the CAPITOL — TONIGHT. The Show of Shows.

Quite a number of runners and sprinters from Cardston were here on Saturday for the Taylor Stake Track Meet.

Frank Atterton went to Cardston on the bus Saturday evening, returning Monday morning.

"DELICIOUS" at the CAPITOL — TONIGHT. The Show of Shows.

Several contestants from Lethbridge were here on Saturday to compete in the Open events in the Track Meet.

Mr. and Mrs. Corin Shipley, and daughter Martha, of Glenwood, were in Raymond for the funeral of Mr. J. E. Day on Friday, and returned home Sunday.

Mr. and Mrs. E. I. May and family were in Cardston on Sunday, and attended the funeral services of Wm. Henderson, who died on Friday.

Sunday was cool and cloudy all day, and Monday morning the rain and the sun were busy trying to decide which should dominate the day.

Sheep shearing in the order of the day now, and the woolies are being robbed of their winter overcoats in quick fire style.

Miss Orpha Vance returned home from Cardston and Glenwood on Friday. Wafare Leavitt brought her home and returned to Glenwood on Sunday.

A good crowd was present at the Dance Saturday night, at the conclusion of the Track Meet. Perce's Fremiers played for it.

Owen Lee Jr. and Roi Stone motored to Cardston Sunday morning to visit, and returned that night. Mrs. Roi Stone returning with them from a visit with relatives.

Sign Painters were here Saturday afternoon getting ready to put a big sign on the north wall of the Raymond Mercantile. These men are with the Associated Grocers and travel all over the west in this kind of work.

C. R. Wing returned Monday from a ten days visit to Utah, taking a "vacation" trip by rail. His statement that while everyone is yelling about the depression, they have all they can eat, plenty to wear, drive their cars as usual and take a shower when they want. And he says the strawberries and other fresh fruit is abundant and very good.

Raymond 2nd Ward Captures Most Points

TRACK MEET DRAWS CROWD

Despite the cool weather on Saturday, a good crowd was at the Park Taylor Stake Track Meet, and every event was keenly contested. There were 146 contestants registered in the various events of the day.

Under the direction of the Taylor Stake M.I.A., with Paul Dahl in direct charge, the program moved along smoothly after it once got under way. J. H. Walker and Myron Holman were official starters; M. R. Woolf, R. G. Kirkham and Frank Filling were timers; and Melvin King, Grant Woolley, Benjie Hicken and Chas. O. Asplund were race judges. J. Crvin Hicken and Folan Low were clerks, and Louis Brandley and E. J. Parsons had the tape for measuring jumps and throws.

The Raymond Second Ward won the Meet with a total of 307 points; Magrath 1st was next with 78 points, then Raymond 1st with 59, and Weibling with 23.

The winners in the various events were as follows:—

100 yards, boys under 16; Time 12.3 seconds;—Delbert Steed, Cardston; Devar King, Leland Nalder, both of Raymond.

60 yds, boys under 14; Time 5.7;—Howard Hicken, Raymond; Clinton Karren, Magrath; Max Heggie, Raymond.

100 yards, boys under 19; Time 11 sec;—Geo. Walker, Leth; Jack Keard, Callis Fitcher, both of Cardston.

100 yds, Senior; Time 10.2;—Roy Welbey, Magrath; H. Walker, Raymond; Glen Hamilton, Leth.

Running Broad Jump, under 16; 17 ft. 4;—Delbert Steed, Joe McGraw, both of Cardston; Leland Nalder of Raymond.

Running High Jump, boys under 14; 3 ft. 10;—Max Heggie, Howard Hicken, both of Raymond; Eldon C. Leeman, Magrath.

Ladies 100 yds; Mildred Galbraith

THE TIMID STENOGRAPHER

"Now, Miss Begg," boomed Jasper M. Whittle, Whittle Whirlwind Laundry Co., to his new stenographer.

"I want you to understand that when I dictate a letter I want it written as dictated, and not the way you think it should be. Understood?"

"Yes, Sir," said Miss Begg meekly.

"I fired three stenographers for revising my letters, see?"

"Yes, Sir."

"A right — take a left?"

The next morning Mr. O. J. Squizz of the Squizz Flexible Soap Co. received the following:

"Mr. C. K. or A. J. something — look it up. Squizz, president of the Squizz — what a name — Flexible Soap Company — the gys. Montreal that's in Quebec, ain't it? Dear Mr. Squizz humum."

"You're a heluva business man. No start over. He's a crook but I can't insult him or the bun'll see me quit chewing that pencil. The last shipment of soap you sent us was of inferior quality and I want you to understand Ah unless you can ship, from now on, no business with you. No regular soap you couldn't ship us no more period or whatever the grammar is, and please pull down your skirt. This damn cigar is out again, pardon me, any furthermore where was it? Nice bub you have but."

"Paraphrase. The soap you sent us was of inferior quality — the dishes no more but dog with comma let alone the laundry comma and we are sending it back — 1. Yours truly, Read that over, no more period, I want you to see on that egg. I'll be at the carbon copy tomorrow. Sign my name, and say, hey! don't let me hear from you again."

"Paraphrase. The soap you sent us was of inferior quality — the dishes no more but dog with comma let alone the laundry comma and we are sending it back — 1. 880 yds, under 19; 2 min. 25;—Elysa Piegrass, Lyle Piegrass, William Nelson, all of Raymond.

Senior Lavelin Throw, 115 ft;—Harris Walker, Raymond; Glen Hamilton, Lethbridge; Bruce Galbraith, Raymond.

Funeral Services for J. E. Day

Funeral services over the remains of J. E. Day, who passed away last Wednesday in the Hospital at Lethbridge, were held on the lawn in front of the residence on Friday afternoon at 4 p.m., with Bishop J. H. Walker of the Raymond second Ward in charge. A good crowd was present to honor the deceased, and the other folks of the town predominated, who had known Mr. Day for many years.

J. E. Samson had charge of the singing with Mrs. Paul Dahl at the organ. The following hymns were rendered, "The Deepening Trials," "Sometime We'll Understand," and "Shall We Meet Beyond the River." Mrs. Emma Burr sang "Face to Face."

The speakers were Arthur Dahl, J. U. Alfred, Pres. Allen, and Bishop Walker. All of these speakers paid high tribute to the sterling character and worth of the deceased. He was a pioneer of the district and as such had done much to help the later arrivals, and had always been cheerful, hopeful, and full of courage in what he had to do. He was a very competent and thorough workman, and any task that he had to do was always done the very best way he could do it.

His integrity, his honesty, his thrift, and his desire to work in home building had been a source of help and inspiration to all the speakers, and his posterity could reflect with pride and satisfaction on the example that had been set by their father.

Referring to the illness of deceased all stated that he bore his trouble well, was uncomplaining, and that right up to the last he was still hopeful that he would recover and be able to carry on the work around his home. A very sad feature of the funeral is the condition of Mrs. Day who has been ill for a long time, and is practically helpless. It was on her account that the services were held on the lawn, so that she may be able to hear what was said.

The opening prayer was offered by Thos. O. Hicken, and the benediction by Christopher Nilsson.

The pall bearers were:—Albert, Robert, Andy and J. V. Heggie, Clifford Gough, and Orval McBride, all grandsons of the deceased. The floral tributes were profuse and spoke highly of the esteem in which deceased was held.

Christensen Bro. of Lethbridge had charge of the funeral arrangements.

Municipal Council Meeting Is Held

The regular meeting of the Municipal Council was held in the Town Hall on Tuesday afternoon last with Mr. Corne Man present.

The Bill Rate for the present year was struck and details of the Assessment decided upon, so that Notices will soon be out.

The Road question was also discussed, and it was decided that under the present circumstances that only

no heavy repair work would be done this year. The bridge over the canal will be put in as soon as the bridge crew can get here to do it, and the side of this single improvement, no road program will be undertaken this year, because of a lack of funds.

Constable Bell and Magistrate J. W. Low of Magrath and Cardston were in Stirling on Saturday holding a Court case.

CAN WE BE SATISFIED?

Is there such a thing as satisfaction in the human heart? Regardless of what we might have, are we ever truly contented? Would it be a good thing if we were satisfied and contented?

These questions and others relative to them are real posers these days. That we are hard to satisfy goes without saying, and it is probably a good thing that it is so. We look back upon the days of '28 and '29 and ask what we were going through then and we think, my if I could only have what I had then I would be perfectly satisfied. Is it possible that we would be? We were not satisfied then. If we had wheat, to sell \$1.65 cents per bushel as not enough so we sold at that figure and then bought options. Fine, but the options flunked and then we were in it. The same was true of the wage earner. High wages were being paid, in fact handsome wages, and there was as much discontent as there is now, although of course not as much unemployment. And, so the thing went. So that judging from the past we would be quite safe in saying that humanity is never satisfied.

It is probably good that it is thus. We grow and expand trying to satisfy the longings of a selfish nature. We build nicer houses, wear better clothes, live a more pride in ourselves and our surroundings, because we want to be as good or a little better than any one else. We call it keeping up with Joneses, but why does Jones do these things? Because Jones has the money to do with, and if we had the money we would be Jones because of that. So, it is probably better that we are hard to satisfy. The cave dweller was not satisfied with his cave, so he built houses. The early house dweller wanted light, so windows of one kind and another were tried. Things advanced and daylight was not enough hours of light, and artificial light was introduced. Today for health purposes more sunlight is needed in houses, & modern architecture rising to the need is building houses with more glass in them ever before so that God's fresh air and sunlight can be let in in view of all this we say it is well that human nature is hard to satisfy. Why have these things taken place? Simply because there was someone who wanted and needed them.

The question of being contented is another problem. We are surrounded with difficulties at times that are not of our own making. We had no hand in their coming and we are helpless to remedy them. Contentment under these things is gem with out price. It does not imply that you are entirely satisfied, nor does it mean that you have lost your desire for a betterment of conditions. It only means that in the condition that you are in, you are determined to find happiness, and in doing the best you can under the circumstances, you are going to be contented and find happiness and joy in it.

There are many things to be learned in the midst of present conditions. We are finding that money can not buy happiness. It buys a lot of things, it is true, but happiness does not come that way. Happiness and joy is found in your relations with your family and fellow men, and money cannot go anywhere to improve these. In these times of lack of cash, we are preparing to provide for ourselves in the gardens we grow and the livestock we raise. Are we properly stricken? No. To be sure there is not much money, but there is an abundance of food where we need it. Everyone is busy and we are having our social functions, reduced somewhat in the fancy and expensive thrills, but enjoyable just the same. And when we find our neighbor in trouble, we are helping to bear his cross far more today than for some years past. Is this a good thing? We say yes. A man cannot live to himself and find any real happiness in life. Living for ourselves and to ourselves, is like the miser. He first trusts his acquaintances, then his relatives and finally himself. He draws away from society, lives and dies with his own thought, and passes on to a cold and lonely grave, with but little of cheer awaiting him on the golden shore, because where he could have lived a life of service and usefulness, especially with his wealth, it has cankered his soul, and

en the sunshine out of his life, and left him empty, bitter and morose, without friends, and when we have lost our friend we have lost the thing that makes life worth living.

Let us live for the good that we can do. If we have wealth, we are fortunate. If we have none, we are still fortunate, no one will be after it. Let us enjoy life by doing for others, and as the poet says:

"Let us live for those that love us,
for the ones we know are true;
For the heaven that smiles above us,
and awaits our spirit too."

News Notes

T. Geo. Wood was in Cardale on Monday this week.

Interest is growing every day in the forthcoming Stampede to be held July 1st. It is expected that all of Southern Alberta will be in Raymond for that day.

Comments on the weather have changed lately. Instead of the former, "It looks like rain," it has changed to, "It looks like it might clear up."

WE BELIEVE IT TO!

The experiences during the recent rains have surely proven the value of the high grade in road building. It only takes a day or so for the road to dry up sufficient for the necessary traffic to be able to use it.—Clareholm Local Press.

Fifty years ago, parties of geologists were stationed along the northern part of Canada for a period of about one year, making observations of weather conditions. This year is another Polar year and parties consisting each of four or six men are being sent north in Canada. Canadian groups will be at Chesterfield, on the Hudson's Bay and at the mouth of the Coppermine River. The third group, now enroute to Canada, will be the British group, who will travel over Canadian National Railways to Edmonton and thence by rail to Waterways, Alta., from where they will complete their trip by canoe and other means, to locate at Fort Rae in the Great Slave Lake area. The aim is to study meteorology, terrestrial magnetism, aurora and atmospheric electricity and, by correlating the data from all stations, to obtain a synoptic view of these various fields through the period of one year from August 1932. This is expected to provide valuable insight into the phenomena as they occur in high latitudes and into general problems which have presented themselves in these subjects in all latitudes.

WATCH FOR GRASSHOPPERS

In anticipation of serious grasshopper menace to crops in certain districts south and east of Calgary, the Provincial Department of Agriculture, in co-operation with the staff of the Dominion Entomological Laboratory at the Experimental Farm at Lethbridge, are taking active steps to control the menace.

Through instructions for grasshopper control are issued in a pamphlet prepared by E. H. Strickland of Alberta University, copies of which may be had on application to the Field Crops Branch, Department of Agriculture, Edmonton.

Although the areas chiefly affected lie in the district south and east of Calgary, it is pointed out that there is possibility of their existence in more central regions of the province, and that it is advisable that all residents in areas which suffered no appreciable damage last year, nevertheless examine likely breeding places in their neighborhood until the end of June. Prof. Strickland also points out that it is most important to discover as early as possible in the season where the hoppers are hatching in the greatest numbers, and to kill them before they develop wings to fly through the crops. The hoppers that threaten grain crops this year lay their eggs almost entirely in cultivated land that was weedy last summer.

CAN WHEAT PRODUCTION COSTS BE REDUCED?

(Experimental Farms Note)

At present prices, profits from grain production have practically disappeared. Numerous remedial measures have been proposed. One suggestion of apparent merit is to reduce the cost of production. A number of questions are thus presented. What is the normal cost of producing grain? What is the variation in the cost? Can costs of production be reduced? If so, to what extent and by

what methods can reduction be effected?

In an endeavor to answer such questions the Dominion Experimental Farms have made a careful study of production costs in the Prairie provinces during the last few years. The results of this study will be released shortly in Bulletin No. 159 of the Dominion Department of Agriculture entitled "Cost of Producing Farm Crops in the Prairie Provinces." The publication presents details on how to calculate the cost of producing crops, the cost of producing crops on the Dominion Experimental Farms, or the Dominion Illustration of the cost of producing crops on a number of privately owned farms in the Prairie Provinces. Farm budgets are also presented showing the cost of producing wheat on different sized farms operated with different equipment. Additional data are included on the life of farm machinery, the costs of tractor operation and the normal days farm work.

The average cost of producing wheat after fallow on eight Dominion Experimental Farms for the period 1923-1930 has been \$17.40 per acre for a 27.4 bushel yield or 64 cents per bushel. The average cost of producing wheat after fallow on a number of privately owned farms in 1929 was found to be \$17.50 per acre for a yield of 22.3 bushels or at a cost of 78 cents per bushel. These are average figures. Great variations exist, however, in the cost of producing wheat. For example the cost per acre on these farms for wheat after fallow ranged from as high as \$24.77 to a low cost of \$9.82. These figures indicate the extent of possible reduction in the per acre cost of producing wheat. Anyone interested in this subject may obtain free a copy of this bulletin by writing to the Publications Branch, Department of Agriculture Ottawa.

Be An Expert Telegrapher

Many men now prominent in the world of affairs made their start as Telegraphers. WHY NOT YOU?

If you have Grade IX or the equivalent, write today to our "In and Out" office of an

INSTRUCTOGRAPHY

and learn how this wonderful instrument will coach you in "sending" and "receiving," and make you a capable Telegrapher in a surprisingly few short months of fascinating home study and practice.

Good pay, comfortable hours, pleasant working conditions, await you, and with less to time than other salaried positions.

VERY EASY TERMS, IF DESIRED, OF COURSE.

(Fill in, clip, and mail — today!)

Gentlemen—Kindly tell me of your home training course in Telegraphy—of the Instructograph and the new special terms on which I may own it.

22-25 Syndicate Block — Winnipeg, Manitoba.

"I Like the Depression"

By HENRY ANSLEY

(Reprinted from the "Buzz Saw")

I like the depression. No more prosperity for me.

I have had more fun since the depression started than I ever had before in my life; I had forgotten how to live, and what it meant to have real friends, what it was like to eat common every day food. Fact is, I was getting just a little high hat.

Three years ago, only one man of the News-Globe organization could be out of town at a time and he had to leave at the last minute and get back as soon as possible. Many times I have driven a hundred miles to a banquet, sat through three hours of humk in order to make a five-minute speech and then drive the hundred miles back so as to be ready for work the next morning.

Nowadays, as many News-Globe employees as are in sight — are invited to make the trip — and we stay as long as we want to. The whole outfit could leave the office now and it wouldn't make any difference.

I like the depression. I have time to visit my friends, to make new ones. Two years ago when I went to neighboring towns, I always stayed at the hotel. Now, I go home with my good friends, stay all night and enjoy good home cooking. I have even spent the week-end with some of the boys who have been kind enough to invite me.

It's great to drop into a store and feel that you can spend an hour or two or three or a half day just visiting and not feel that you are wasting valuable time.

I like the depression.

I am getting acquainted with my neighbors. In the last six months I have become acquainted with folks who have been living next door to me for three years. I am following the Biblical admonition, "Love your neighbors." I am getting acquainted with my neighbors and am learning to love them.

Three years ago I ordered my clothing from a merchant tailor — two or three suits at a time. All my clothes were good ones. I was always dressed up. But now, I haven't bought a suit in two years. I am mighty proud of my Sunday go to meeting clothes. When I dress up, I am dressed up and I don't mean maybe. I like the depression.

Three years ago I was busy and my wife was so busy that we didn't see much of each other, consequently we sort of lost interest in each other. I never went home to lunch. About twice a week I went home for dinner at 6:30 o'clock. I never had time to go anywhere with her. If I did go on

a party, I couldn't even locate her. Since there was always a "blond or a redhead" available, I didn't much worry about it.

My wife belonged to all the clubs in town. She even joined the young mother's club. We didn't have any children but she was studying—and between playing bridge and going to clubs, she was never at home.

We got stuck up and highalutin. We even took down the old family bed and bought a set of twin beds on the installment plan.

When I would come home at night if my wife was not home, she would already be in her bed, and I would crawl in mine. If she came in last it was vice versa.

We like the depression. We have come off our pedestal and are really living at my house now. The twin beds are stored in the garage and the old family affair is being used. We are enjoying life. Instead of taking a hot water bottle to bed these cold nights, she sticks her heels in my back just like she did before Bennett was elected.

I haven't been out on a party in eight months. I have lost my book of telephone numbers. My wife has dropped all the clubs. I believe we are falling in love all over again. I am pretty well satisfied with my wife. Think I will keep her, after she is 40 years old, and if I feel like I do now, I will never trade her for two twenties.

I am feeling better since the depression. I take more exercise. I walk to town and a lot of folks who used to drive Cadillacs are walking with me. I like the depression.

My digestion is better. I haven't been to see a doctor in a year. I can eat anything I want to.

I am getting real honest to goodness food. Three years ago we had filet mignon once a week, now we have round steak and flour gravy. Then we had roast breast of guinea. Now, we are glad to get now besom with the buttons on it.

I like the depression. My salary has been cut to where I can't afford to buy lettuce and spinach and parsley and we can't afford to have sandwiches and frozen desserts and all that damfoolishness which has killed more good men than the war.

I like the depression. Three years ago I never had time to go to church. I played golf all day Sunday and besides, I was so darned smart that there wasn't a preacher in West Tex as who could tell me anything.

Now I go to church regularly, never miss a Sunday.

And if this depression keeps on, I will be going to prayer meeting before long. I like the depression.

PASTEURIZATION OF MILK

The last article dealt with undulant fever which is one of the diseases commonly spread by milk, and attention was directed to the fact that if milk is pasteurized it is rendered safe; therefore pasteurization will prevent the spread of undulant fever through milk.

We return to the subject of pasteurization of milk in order to emphasize its importance. We make no apology for repeatedly referring to pasteurization because in that process we possess one of the most effective means of controlling or minimizing the occurrence of certain diseases.

Milk is the most valuable single food which we possess, and it is for this very reason that it is of the utmost importance that this food be perfectly safe. Fortunately for us, it can be made perfectly safe and there is no reason why milk should not be used freely on that account.

Milk may be dangerous because it may act as the conveyor and distributor of disease germs. Because milk is so widely used and consumed in such large quantities, it is obvious that if it is contaminated with the germs of disease, it is almost sure to spread disease amongst a large number of people. Disease germs may enter the milk directly from the cow, that is, the cow suffering from contagious abortion or tuberculosis

may pass out the germs of these diseases in the milk, or the milk may after milking be contaminated with disease germs from the cow which have left the body of the animal in its excreta.

Disease germs may also gain entrance into the milk from the milker or other milk handlers. The germs of disease are to be found not only in the bodies of those actually ill but also during the time when they are coming down with the disease and often for a considerable time after recovery.

The germs leave the body in the secretions and excretions of the body. So it is that coughs, sneezes, particles of sputa, or excreta remaining on unwashed hands are likely to carry disease germs and if they gain entrance to the milk, then the milk is contaminated and will spread the germs to those using the milk.

It is in this manner that scarlet fever, septic sore throat, typhoid fever and human tuberculosis are spread by milk. There is no system of inspection and one may say there is no measure of practical care which can be taken that will assure the safety of raw milk. There is only one practical method of making milk safe and that is pasteurization, failing which, milk should be boiled before use. Our aim should be as clean a milk as possible from healthy cows rendered safe by pasteurization.

BUCKWHEAT

(Experimental Farms Note)

Buckwheat, while an important farm crop, is frequently grown as an afterthought. Requiring only from ten to twelve weeks to mature, seedling may be done during an otherwise more or less idle season of the summer. It is one of the most successful poor land crops, prospering relatively well on poor & acid soils. It responds readily, however, to good treatment. Light well drained soils are well suited to this crop. An excess of nitrogen may produce too much straw and cause lodging. It also seems practically immune to insect and plant diseases.

Buckwheat does best where the climate is cool and moist. At blooming time it is very sensitive to high temperatures and to dry weather. Under such conditions many flowers then in bloom may be "blasted" and produce no grain. To avoid this as much as possible sowing is delayed until late in June or early July allowing the principal growth to take place in warm weather and the formation of seed when the temperature is likely to be a little lower.

As a farm crop buckwheat often proves relatively profitable. Buckwheat flour is used extensively for making griddle cakes. The grain makes excellent poultry feed. The straw is a medium used as feed when well preserved. It should not be used as a bedding for hogs. Since the straw contains a large amount of mineral matter and rots quickly it makes a good manure. As a crop buckwheat appears able to utilize better than do the cereal crops the relatively insoluble mineral constituents of the soil. As a soil renovator buckwheat when plowed under has a distinct value. It may also be used as a nurse crop with

sweet clover, the latter adding to the feeding value of the straw. Mixing with other cereals such as barley may be useful, the buckwheat tending to keep the barley from lodging and the barley assisting at harvest time in allowing the straw to dry out more quickly. Producing many flowers well supplied with nectar over a period of a month at least, buckwheat is an excellent source of honey for bees.

Quick germination and rapid growth make buckwheat ideal as a weed destroyer. Two crops of buckwheat during the one year usually prove effective in eradicating even row thistle and quack grass. The first crop should be seeded early in May, ploughed before blossoming begins and worked for a ten day period and reseeded to buckwheat.

W. G. McGregor,
Central Experimental Farm,
Ottawa.

News Notes

Several local golfers were at Magrath on Sunday last. The caretaker of the Magrath course said it was full all day Sunday.

Barff had a rain of ducks Sunday night, and when the birds mistook the roads for lakes during a storm in a night flight, they fell on the hard road and broke their necks. The youngsters gathered up several dinner by selling them to the taxidermist.

With less rain over the week-end the rivers in Southern and central Alta. were receding and towns checking up on the damage. Flood loss will cost High River \$15,000 and Calgary had their gravity water line broken. Other minor damage was done.

News Notes

S. J. May was in Magrath on Monday.

Mrs. Tommy Allan is home after a short visit to the States. She returned Monday.

W. MacPhail of the Dominion Sales Book Co. was in Raymond on Monday of this week.

Eureka, Cal., was visited by an earthquake early Monday and one woman was killed when a chimney collapsed and falling brick fractured her skull.

Calgary will probably face a loss of approximately \$100,000 as a result of the recent floods of the rivers there. Water carts have been making daily rounds for some days to supply the residential section of the city with water.

Sheep shearing is in progress at the farms surrounding Raymond, and a number of local men are working the blades. About 6c. per fleece is the wages this year. A good shearer can go over 100 sheep per day.

E. Bailey of Sundial lost a cow and radio when lightning hit his place during a storm Sunday night. Two cows were chained together in the pasture, only one of them being killed. He had taken down his aerial thinking the wire may attract the lightning.

J. F. Atterton and wife of Cardston were in Raymond Sunday visiting with Mr. and Mrs. R. J. Webster. Misses May and Norma Snow came with them and visited with C. H. Snow and family here.

A few drops of rain fell Monday afternoon and a nice shower during the evening, but Tuesday was bright and clear, and the sun was doing its stuff in real old fashioned style. Grass and trees are growing rapidly and crops and beet fields have never looked better.

News Notes

Dr. D. E. Fowler of Magrath was in Raymond on Monday afternoon.

A party for the Honor Students of the School is being held in the Opera House this afternoon.

Geo. W. Green, Sr., of Lethbridge was in Raymond on Wednesday of this week.

Born to Mr. and Mrs. J. F. Elder at their home on Wednesday, June 8th, a baby boy. Mother and son are doing nicely.

Baptismal services will be held in the High School at 2:30 p.m. Saturday, June 11th.

Mr. and Mrs. Jack Mendenhall are the proud parents of a baby boy born Sunday, June 5th. Both are doing nicely.

We had one of our nicest days Tuesday. Some say that was the beginning and end of our summer.

A tile drain is being built to take care of the waste water from the Raymond Photo Studio.

John Dorris of Chicago was playing catch with a hatch ball as he stood in the water, when a bolt of lightning exploded the ball so that even a fragment of it could not be found. Dorris toppled over in the water, but was unhurt.

Premier Mussolini escaped another plot on his life Saturday, when a would be assassin was arrested because he could not furnish proper identity card when questioned by police. He was armed with a pistol and two bombs.

BUTTER AND BEEF

STOCKS ARE LOW

Regina, Sask., June 10—"It is to be noted that creamery butter stocks on April 1 were below the five year average for this date," says the weekly bulletin of the Co-operation and Markets Branch of the Provincial government. Beef stocks on the other hand are lower than a year ago but little over half the five year average supply.

"No embarrassing surplus stands in the way of an appreciation in butter prices and having a very good cow or two on every farm now will help pay expenses; any surplus can be sold at the advanced price," is the comment of Harvey O. Powell, general manager of the Dominion Agricultural Credit Company Limited.

Here and There

There are 77 mills in Canada in the Cotton textile industry from which the annual value of production, according to latest available figures, is \$58,687,366.

An outstandingly popular sport at Banff is the bathing in the hot sulphur pools operated by the Banff Springs Hotel and the Canadian Government. Last year 89,000 people used the pools.

July 24 to August 5, 1933 is the new date set for the World's Grain Exhibition and Conference to be held at Regina, Saskatchewan. Railway executives from all over the continent will be among those attending the Exhibition.

Regimental colors, approved by His Majesty the King, and donated by the Hon. Robert Harris, late Chief Justice of Nova Scotia, to the Annapolis Regiment, First Battalion, Annapolis Royal, N.S., reached their destination recently, having been carried on S.S. Montrose.

A sixteen thousand mile telephone call was put through from Schreiber, Ont., to Sydney, Australia, recently after telephone companies and the Canadian Pacific Railway department of Communications had pooled their resources over a 2000-mile front in Canada.

The startling discoveries of radium and silver at Great Bear Lake, as well as many other important topics, are to be discussed in the technical sessions of the annual meeting of the Canadian Institute of Mining and Metallurgy in Montreal on April 5, 6 and 7. A part of the proceedings is to be broadcast.

Seventy Atlantic crossings in the ships of one company is the record of C. H. Williams of Toronto who this month reached the three score and ten mark in the Canadian Pacific Duchess of Atholl. He is not yet 45 and has been crossing regularly in Canadian Pacific liners since 1912.

The Governor General, Patron of the Canadian Institute of Mining & Metallurgy, will attend the annual meeting in Montreal on April 5, 6 and 7. It has been arranged that his address to the assembled mining men will be broadcast to all quarters of the Dominion for the benefit of those who cannot attend the meeting.

G. S. Brewerton of Cardston was in Raymond visitor on Friday.

"DELICIOUS" at the CAPITOL - TONIGHT. The Show of Shows.

J. H. Walker was in Lethbridge on Thursday.

The local baseball nine journeyed the long end of a 6-0 score there.

T. Geo. Wood, is one of the Executive of the Canadian Manufacturers Association.

Mrs. A. W. Kirkham returned on Monday of this week from a visit to Utah.

LOST - Wooden barrel and can of 1 gal Ice Cream Freezer, between J. W. Fisher farm and town. Communicate with Mrs. J. W. Fisher.

"We are turning out a better class animal and a better finished animal, in consequence of which the comparative price we obtain is better, and our cattle are in some demand on the British market," John S. McMurchy, manager, Northern Trusts Company al Calgary writing in the Monetary Times regarding Alberta cattle.

Forest fires are raging in Quebec and settlers and the wild life are fleeing side by side to escape the flames.

It will cost Alberta \$370,000 to repair damage to the telephone lines following the April storm.

Routine business occupied the time of the Town Council meeting last night. Several items were discussed but no decision reached.

Mrs. T. Geo. Wood is vacationing in Utah at the present time and will likely be there until the middle of July.

The heavy rain Wednesday afternoon brought a little over half an inch of rain to add to the already copious supply. Getting stuck was a common thing Thursday for both teams and cars.

Mushrooms are growing everywhere with the abundant moisture, and many excellent meals are reported from this peculiar fungi.

Born to Mr. and Mrs. B. J. Coombs on Thursday, June 9, a 14 lb. baby girl. Mother and babe are doing nicely.

Another Band Concert is being held in the Capitol Theatre, Sunday night and a silver collection will be taken. The band is now carrying on in connection with the local branch of the Canadian Legion and will be known as the Canadian Legion Band.
